

## VT PACE Accounts

Virginia Tech provides a secure and accountable method for groups to share departmental or workgroup email through the use of Personal Access for Collaborative Email (PACE) accounts. A PACE account is useful for situations when a department or workgroup needs a long-term, stable email address; and multiple members of the department or workgroup need to access the same email. Also with a PACE address a department or workgroup gets a simple email address (e.g., *account\_name@vt.edu*) and the ability to control who may access the email. PACE accounts could also be used for events like a conference or symposium. One of the advantages to using a PACE account is that it helps keep your Inbox clean since all email sent to the PACE address actually goes to a separate Inbox which you can have in your Folder List in Outlook or access via [weboutlook.vt.edu](http://weboutlook.vt.edu).

One of the requirements to using a PACE account is that you must have a Hokies account which limits their usage to Faculty and Staff. The table below lists the current PACE accounts that the college has along with a brief description on their usage. Please do not hesitate to [contact us](#) if you have questions or would like to obtain a PACE account for your workgroup, unit, or event.

### Current CNRE PACE Accounts

Address (not case sensitive)	Description/Usage
CNRE@vt.edu	Contacting the College of Natural Resources and Environment.
FishWild@vt.edu	Contacting the department of Fish and Wildlife Conservation.
FREC@vt.edu	Contacting the department of Forest Resources and Environmental Conservation.
Geography@vt.edu	Contacting the department of Geography.
VTWood@vt.edu	Contacting the department of Wood Science and Forest Products.
Water@vt.edu	Contacting the Virginia Water Resource Research Center.
CNREHelpDesk@vt.edu	Contacting the college's IT group.
CNRECareerFair@vt.edu	Contacting the college with questions regarding the career fair and for companies to send the college information about careers.
