**Date:** Monday, November 14, 2016 7:18:18 AM

---

Happy Monday CNRE,

The Minnow maintenance went as expected Saturday morning! This upgrade even fixed a problem a few people had been experiencing using Windows Explorer where the refresh rate was so fast that it was difficult to perform tasks like renaming files. Thanks.

Lon

**Subject:** Reminder: Minnow Unavailable Early Saturday Morning (11/12/16) For Maintenance  
**Importance:** High

Hello CNRE,

This is the final reminder that minnow.cc.vt.edu, where CNRE's five shares (CNRE1, CNRE2, CNRE3, CNRE4, & CNRE5) are located, will be unavailable tomorrow, Saturday November 12<sup>th</sup>, from 12:01 am till 8 am for an upgrade. This is the maintenance that was supposed to happen back in July but they ran out of time due to some preliminary processes taking longer than expected.

**As before, I'm not sure of any ramifications of having files open at the time of the maintenance so I highly recommend saving and closing all files along with closing Outlook in case it has any archives open on minnow before you leave for the weekend!** I'm going to shut my computers down before leaving work today just to be sure I don't have anything open on minnow.

Below is a list of all services that will be unavailable during this maintenance cycle.

- Exchange
- Minnow.cc.vt.edu (CNRE share)
- Mystore and Mystore2 – no access to Windows roaming profiles.

- Department shares on the NAS
- VT Confluence
- JIRA
- Banner Document Management System/Application Xtender

Technology-enhanced Learning and Online Strategies

- Scholar
- FDI Registration
- SPOT Survey
- iTunesU

(OLD) Ensemble Content Management System-Publishing only -- AEM is not impacted

Web Hosting

- All hosted websites
- MySQL Databases associated with hosted websites
- VT Calendar (calendar.vt.edu)
- VT Survey (survey.vt.edu)

Thanks.

Lon
