Subject: Security Warning: Attention Skype Users
Date: Friday, November 12, 2010 11:03:14 AM
Importance: High

Hello CNRE,

This is just a security warning for you Skype users out there. The fake AntiVirus malware that is has become a common problem is now making it rounds via Skype Chat sessions. If you are a Skype user then I suggest reading the short diary entry at <http://isc.sans.edu/diary.html?storyid=9922>. Thanks. Lon.
