Subject: Phishing Alert: FW: New Phishing Email
Date: Tuesday, December 13, 2011 5:44:46 PM
Importance: High

Hello CNRE,

This is just a heads up. There's a pretty well worded phishing email about "Payroll Logs" making its rounds at Tech and it appears to download malware if the links within the email are clicked on. Please see the note below from the VT IT Security Office for more information. Thanks. Lon.

Subject: New Phishing Email

As a reminder please alert all of your faculty and staff to not click on links in emails that could be considered unsolicited or suspicious.

At approximately 4:30 today a well worded phishing email about "Payroll Logs" made its way through campus and a noticeable amount of machines appeared to download a malicious toolkit. Remind your users to be vigilant.

Thanks,
