Subject: Security Alert: New Version of Symantec Antivirus Pop Up is Legitimate
Date: Thursday, January 13, 2011 10:09:28 AM
Importance: High

Happy 2011 CNRE,

This is more of an FYI note. If you receive a pop up saying that a new version of Symantec Antivirus is available it is legitimate! It will take you to VT's antivirus page (antivirus.vt.edu) and prompt for your VT PID and PID password. Once you provide your credentials it should download and run the update. This update should not require a restart. Thanks and as always please do not hesitate to [contact us](#) for questions or problems. Lon.
