Subject: VT Google Apps Login Change
Date: Wednesday, January 24, 2018 1:44:13 PM
Importance: High

Hello CNRE,

This coming Monday the 29th VT is changing how you will access any of your VT Google Apps also known as VT G-Suite like Mail, Drive and Groups. I'm sure a lot of you have already seen announcements but I thought it was important to hear it from CNRE-IT as well. Starting Monday when you go to gmail.com and enter in your Google Apps account ([PID@vt.edu](#)) you will be redirected to the standard VT Login service that you're already familiar with for things like onecampus, hokiespa.vt.edu, and hokiemarket. Once there you will provide your PID(without the @vt.edu) and PIDPassword and then use your desired 2-FA method to login. Once logged in everything should be as it was before. Note that if you had previously enabled Google's 2-FA on your VT Google Apps account it will be bypassed after this change since you'll now be using your PID credentials and be behind VT's DUO 2-FA implementation. Essentially you'll never need to use or remember your Google Apps password ever again!

Here is a link to a 4help KB article (with screenshots) to help explain the new process.

Thanks.
Lon
