Subject: Security Warning: DHL Express Email
Date: Monday, March 21, 2016 11:24:40 AM
Importance: High

Hello CNRE,

I just got a message claiming to be from DHL Express. It has an attachment which is a Java Script that will run automatically if you try to open the attachment. I'm not sure what it does but I'm sure it's not good! If you get this message you should just delete it immediately.

Lon

PS This is the second one of these that I sent but the first one ended up in my junk email!
